

December 5, 2025

The Honorable Katie Hobbs
Office of the Arizona Governor
1700 West Washington
Phoenix, AZ 85007

Dear Governor Hobbs:

Pursuant to A.R.S. § 35-131, we respectfully submit the Annual Financial Report of the State of Arizona for the fiscal year ended June 30, 2025.

This report is prepared on a cash basis and reflects the financial transactions of the State of Arizona as well as the ending fund balance in the General Fund for the fiscal year ended June 30, 2025.

All state funds and state agencies are included in the report at a summary level. As required by law, this report also includes statements reflecting non-appropriated activity in the same detail as the General Fund.

Sincerely,

Elizabeth Alvarado-Thorson
Director

cc: Ashley DiMaggio Ruiz, Assistant Director and State Comptroller, ADOA-DBF

STATE OF ARIZONA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

Note 1. – Summary of Significant Accounting Policies

The accounting policies of the State of Arizona (State) are in conformity with Generally Accepted Accounting Principles (GAAP) as applicable to governmental units and are consistent with the Arizona Revised Statutes. Although accounts are separately maintained for each fund in the accompanying financial statements, funds that have similar characteristics have been combined into fund types.

A. Basis of Accounting

The Annual Financial Report is prepared for funds on a cash basis of accounting in accordance with State law. Under the cash basis of accounting, revenues and expenditures are recognized when recorded in the State's central accounting system, the Statewide Financial Management System (AZ360). No adjustment has been made to revenues or expenditures for unrecorded accounts receivable, accounts payable, deferred revenue or other accrual. Disbursements of appropriated monies, including related operating transfers, are reported as expenditures. The audited financial statements prepared in accordance with GAAP are published annually in the State's Annual Comprehensive Financial Report (ACFR).

B. Reporting Entity

The accompanying General Fund cash basis financial statements include transactions of the following funds and accounts: the Tax Refund Account, the Urban Revenue Sharing Fund, the Excise Fund, and the Special Collections Account. These funds were included in the financial statements for the fiscal years ending June 30, 2024 and 2025 (FY24 and FY25) to more accurately reflect ending General Fund Total Cash.

C. Fiscal Year Reporting

In accordance with A.R.S. § 35-102, the State operates on a fiscal year beginning July 1 and ending on the subsequent June 30. This report primarily covers Fiscal Year 2025 (FY25), the fiscal period ending June 30, 2025.

D. Budgets and Appropriations Accounting

The State follows these procedures in establishing the budgetary data reflected in the financial statements:

- Annually the Governor submits to the Legislature a proposed operating and capital outlay budget for the fiscal year commencing the following July 1. This document includes proposed expenditures and the means of financing them.
- Public hearings are then conducted during legislative sessions.
- Prior to July 1, the budget is enacted through passage and approval of bills containing appropriations.
- Appropriation accounting is then employed as a management tool to monitor the appropriated monies.

E. Rounding Differences

The information shown in the financial statements has been rounded to the nearest dollar, and therefore, minor differences may be found when adding the columns down or the rows across. The rounding differences are inconsequential.

Note 2. – Description of Financial Statements

- A. The accompanying financial statements include a Comparative Balance Sheet and a Statement of Revenues, Expenditures, and Changes in Fund Balance for the General Fund. The Comparative Balance Sheet for the General Fund provides additional detail in arriving at the amount for total assets and liabilities. The separate line items are composed of Cash with the State Treasurer (which may include cash and cash equivalents), Cash Not with the State Treasurer, and various receivable and payable items. This presentation provides additional transparency of the financial

STATE OF ARIZONA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

Note 2. – Description of Financial Statements (Continued)

statements and highlights the difference between Cash and Fund Balance. Two items of particular note:

RV1032 – Proposition 100 (2010) - Revenue collections in RV1032 are voter restricted by the 2010 Proposition 100. The measure amended Article IX of the Arizona State Constitution, raising the state sales tax from 5.6% to 6.6%, and included a clause to automatically repeal the increase on May 31, 2013. Two-thirds of the revenue was designated for primary and secondary education, while one-third of the revenue was designated for both health and human services and public safety. The revenue flows to the State General Fund, yet it has specific uses. While this temporary sales tax was repealed on May 31, 2013, there are certain tax activities (e.g. corrections) that allow collections to continue and activity to occur in this fund.

- B. The Statement of Expenditures - Appropriation to Actual, Budgetary (Legal) Basis is presented for all General Fund appropriations, including all capital appropriations from the General Fund.
- C. Administrative Adjustments are shown as Note 12 to the financial statements.
- D. The General Fund is presented prominently in the Annual Financial Report (AFR) due to its significance. The Statements of Revenues, Expenditures and Changes in Fund Balance are presented for all other funds as accounted for in the AZ360. The statements include beginning and ending balances for the current fiscal year as well as appropriated and non-appropriated activity in each fund. See Note 6 for additional detail on these statements.

Note 3. – Statement of Expenditures – Appropriation (Budget) to Actual – Description of Selected Columns

A. Supplemental Appropriations and Adjustments

The column titled Supplemental Appropriations, Mid-Year Reversions and Adjustments, shown on the Statement of Expenditures – Appropriation (Budget) to Actual, includes the following:

Supplemental and Special Appropriations are either the additional spending authority (appropriation) granted by the Legislature after the General Appropriations Act is approved or other Session Law appropriations granted by the Legislature to a State agency or department for a specific program or purpose.

Transfers and adjustments are the movements of monies or spending authority between or within funds, departments, and programs in accordance with the Arizona Revised Statutes.

Mid-year reversions (when applicable) are the return of spending authority (appropriation) originally granted to a State agency or department through the appropriation process prior to the completion of the authorized spending period.

B. Lapsed Appropriations

In accordance with A.R.S. § 35-190, except as otherwise provided by law, all appropriations lapse after the close of the fiscal year. The unused spending authority (appropriation) which was originally granted to a State agency or department through the appropriation process expires. The term “reversion” is sometimes used in reference to these lapsed appropriations. The amount of lapsed appropriations from the General Fund for FY25 is \$269,290,265 from General Operations and \$2,596,873 from Capital Outlay.

C. Continuing Appropriations

A continuing appropriation is spending authority that, once established, is continuous, period after period, until amended or revoked. In the State of Arizona, continuing appropriations are primarily for construction or other projects that take longer than one year to complete. The total FY25 General Fund reserved for continuing appropriations of \$746,895,558 is comprised of \$393,005,705 from General Operations, \$353,889,853 from Capital Outlay.

STATE OF ARIZONA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

Note 4. – Budget Stabilization Fund

A.R.S. § 35-144 established the Budget Stabilization Fund (BSF) in 1990. The BSF is sometimes referred to as the rainy day fund. The purpose of the BSF is to normalize the financial fluctuations of the State's high and low growth rates. The amount of cash transferred to or from the BSF and the General Fund - General Operations is established by statutory formula and other laws. No operating expenditures may be made from the BSF. However, Laws 2024, Chapter 209, House Bill 2897, Section 128 appropriated \$25,000,000 from the BSF to provide temporary operating funding for cash flow purposes to the Department of Economic Security, which required repayment. The Department of Economic Security pursued using the \$25,000,000 appropriation that was authorized and fully reimbursed it to the Budget Stabilization Fund on August 25, 2025.

Interest earned on pooled investments with the State Treasurer is the basic revenue source of the BSF. The FY25 fund balance for the BSF increased from \$1,503,550,487 to \$1,558,799,541. The increase of \$55,249,054 was due to interest earnings of \$61,877,793; and net transfers out of the BSF in the amount of \$6,628,739.

Note 5. – Proposition 301

Proposition 301 was passed in the November 2000 general election. The passage of Proposition 301 approved (1) an increase in the state transaction privilege (sales) tax and the state use tax of six-tenths of one per cent to raise revenues in support of education and a state income tax credit in mitigation of those tax increases; (2) inflation adjustments in state aid for education; (3) a termination of an exemption from education funding revenue control limits for excess utility costs; and (4) a limitation on the school district qualifying tax rates and the county equalization assistance for education rate.

Note 6. – Statement of Revenues, Expenditures and Changes in Fund Balance

A.R.S. § 35-131.E, requires the AFR to include all appropriated and non-appropriated monies. The General Fund is presented prominently in the AFR due to its significance. In accordance with the statute, the Statement of Revenues, Expenditures and Changes in Fund Balance presents appropriated and non-appropriated activity for all other funds accounted for in the AZ360 as well as beginning and ending balances for each fund. As required, this report includes non-appropriated activity in the same detail as the General Fund. When applicable, the Statement includes appropriated activity for each fund, summarized within a single line item labeled "Appropriated Activity."

During the course of the report compilation, a number of funds with negative balances were noted. No analysis of the accounts that comprise the negative balances was conducted as to the cause or the resolution. The following funds were noted with negative balances:

- Credit Card Clearing Fund – Department of Agriculture (AH2600)
- Credit Card Clearing Fund – Board of Accountancy (AB2600)
- Credit Card Clearing Fund – Department of Administration (AD2600)
- Federal Grant Fund – Early Childhood Development and Health Board (CD2000)
- Federal Grant Fund – Department of Child Safety (CH2000)
- Federal Grant Fund – Department of Corrections (DC2000)
- Safety Enforcement and Transportation Infrastructure Fund – Department of Transportation (DT2108)
- Federal Grant Fund – Department of Environmental Quality (EV8302, EV8811)
- CDBG-CV Cares Act Fund – Department of Housing (HD2976)
- Intergovernmental and Interagency Service Agreement Fund – Office of Administrative Hearings (HG2500)
- Credit Card Clearing Fund – Department of Health Services (HS2600)
- Coronavirus State and Local Fiscal Recovery Fund – Department of Health Services (HS2985)
- Federal Grant Fund – Department of Insurance and Financial Institutions (ID2000)
- Receivership Liquidation Fund – Department of Insurance and Financial Institutions (ID3104)
- Indirect Cost Recovery Fund – Department of Emergency Management & Military Affairs (MA9000)

STATE OF ARIZONA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

Note 6. – Statement of Revenues, Expenditures and Changes in Fund Balance (Continued)

DOR Unclaimed Property Fund – Department of Revenue (RV1520)
Credit Card Clearing Fund – Supreme Court (SP2600)
LGIP-COP Investment Held for Trustee Fund – State Treasurer (TR3171)
Arizona Endowment Trust Fund – State Treasurer (TR3319)
Treasurer Administrative Fund – State Treasurer (TR3736)
Local Trans Assistance Fund – State Treasurer (TR3848)

Certain accrual adjustments are recorded in the AZ360 consistent with the statutory or legal basis upon which the AFR is prepared and has not been modified. Current year adjustments to prior year accruals, such as refunds of prior years' expenditures or adjustments to long-term debts or receivables, are reflected in the Fund Balance report as an adjustment to the beginning fund balance.

Additionally, other entries are current year transactions and are shown as Revenue and Expenditure Offsets. Revenue offsets are frequently the result of adjustments to amounts recorded as Due to Other funds. Expenditure offsets are most commonly related to depreciation and adjustment of fixed assets. Revenue and Expenditure Offsets are recorded in the Fund Balance Report in their respective revenue and expenditure columns. Furthermore, a number of funds have year-end cash balances in the AZ360, but other balance sheet accounts offset the cash resulting in a net fund balance of zero. This occurs most commonly with the Credit Card Clearing Fund.

Fund activity in the Fund Balance Report is shown on the statewide fund level within each agency. Some statewide funds have activity with more than one agency, and the report separates the activity within each agency. For this year's AFR, the Corrections Fund has activity with more than one agency. The report separates the activity by fund and agency within the administrative agency.

Note 7. – Disproportionate Share Hospital Payments

Hospitals that have a qualifying Low-Income Utilization Rate and uncompensated care costs are eligible to participate in the Disproportionate Share Hospital Program (DSH) which provides supplemental funding to those participating hospitals. In the State of Arizona, the Arizona Health Care Cost Containment System (AHCCCS), under a Medicaid State Plan approved by the Centers for Medicare and Medicaid Services (CMS) of the U.S. Department of Health and Human Services, and the Arizona State Legislature, is authorized to make payments to Arizona hospitals that provided care to a disproportionate share of the State's indigent population. Under the approved state plan, AHCCCS transferred \$18,477,362.61 to the State General Fund in FY25. The Patient Protection and Affordable Care Act of 2010 (Pub. L. 111–148), as amended by the Health Care and Education Reconciliation Act of 2010 (Pub. L. 111–152) (collectively, the Affordable Care Act), amended Medicaid DSH provisions, adding section 1923(f)(7) of the Social Security Act (the Act). Section 1923(f)(7) of the Act would have required reductions to states' FY DSH allotments from FY 2014 through FY 2020, the calculation of which was described in the Disproportionate Share Hospital Payment Reduction final rule published in the September 18, 2013, Federal Register (78 FR 57293). On September 25, 2019, CMS published the final rule Medicaid Program; State Disproportionate Share Hospital Allotment Reductions (2019 final rule) delineating a revised methodology for the calculation of DSH allotment reductions beginning in 2020 (subsequently delayed by further statutory enactment) (82 FR 50308). Currently, the DSH allotment reductions required under section 1923(f)(7) of the Act, as amended by section 44303 of the Working Families Tax Cut Act (WFTCA), (enacted on July 4, 2025) are in effect for FY 2026 through FY 2028, at \$8 billion for each year.

Note 8. – Credit Card Payments by Governmental Entities

A.R.S. § 35-391 B. requires governmental entities to disclose in their annual financial report the amount of any reward, discount, incentive or other financial consideration received resulting from the use of credit card payments by governmental entities. During FY25, \$823,884 in incentives were received from the use of credit card payments by State agencies, excluding universities.

STATE OF ARIZONA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

Note 9. – Coronavirus Relief Fund and American Rescue Plan Act of 2021

The COVID-19 pandemic affected the normal operations and expenses of many State agencies. The Federal government CARES Act state/local government aid allocation, known as the Coronavirus Relief Fund (CRF) provides resources to state/local governments. In addition, on March 11, 2021 the Federal government American Rescue Plan Act (ARPA) was signed into law on March 11, 2021. This Act provides resources to State agencies to respond and to contain the economic and public health impacts of COVID-19. The CRF and ARPA uses for State government may have temporary impacts to ending fund balances. While some of this activity is reflected in the current report, there will be additional actions by the State through December 31, 2026 to expend ARPA resources.

Note 10. – AHCCCS Appropriation Reduction

AHCCCS reduced several BFY 2025 general fund appropriations by a total of \$42,851,600 instead of \$94,051,600 as listed in Laws 2025, Senate Bill 1735, Section 101. The lower ex-appropriation was due to a tobacco revenue shortfall as well as different capitation rates and caseloads used in determining the ex-appropriation than were realized during BFY 2025. In addition, AHCCCS estimates that the General Fund will receive \$36 million through the SFY 2025 ALTCS EPD county refund process.
